UNEZ TRADING
SINCE 2017

UNEZ TRADING PTY LTD

COMPANY PROFILE

DESIGN | DEVELOP | DELIVER

YOUR PRODUCT DEVELOPMENT PARTNER

At Unez Trading, we bridge the gap between ideas and manufacturing.

From concepts and 3D design through to fabrication, moulding solutions, branding, and final production support, we help businesses develop products efficiently, professionally, and cost-effectively.

Our focus is simple: Deliver practical solutions that work and are ready for manufacture.

WHAT SETS US APART:

- End-to-End Project Management
- Design-for-Manufacture Expertise
- Trusted Manufacturing Network
- Custom Fabrication Solutions
- Practical Engineering Approach
- Single Point of Contact

UNEZ TRADING
SINCE 2017

TURNING IDEAS INTO REAL-WORLD SOLUTIONS

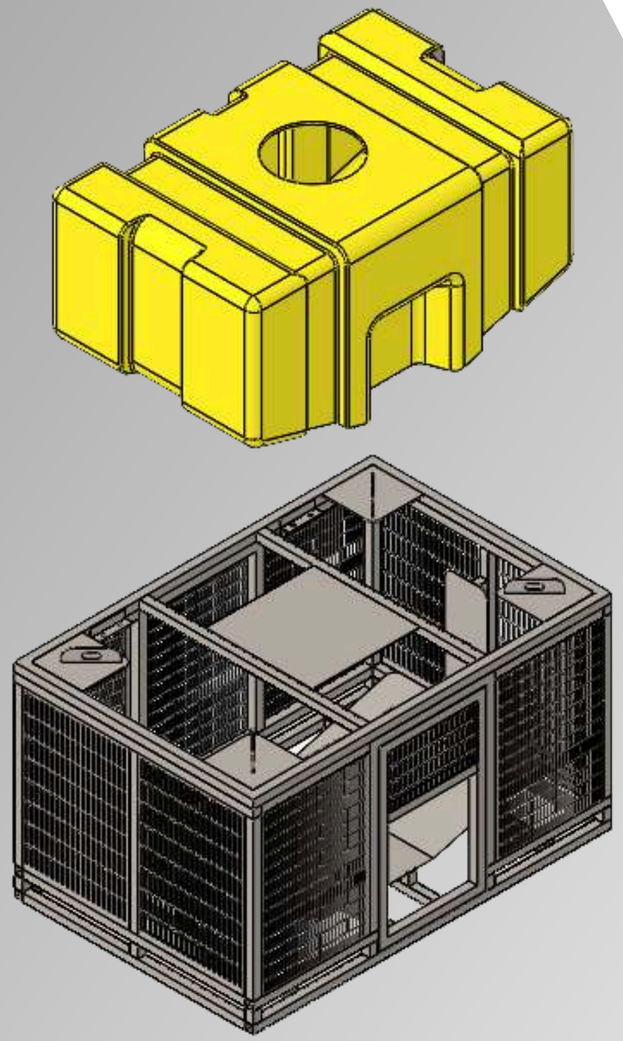

Many businesses have innovative ideas but face challenges when moving from concept to production.
Design limitations, manufacturing constraints, supplier coordination, and project complexity can quickly turn a promising concept into an expensive and time-consuming process.

At Unez Trading, we simplify this journey by providing the expertise, resources, and project management needed to transform ideas into practical, manufacturable solutions.

WHAT WE BRING TO EVERY PROJECT

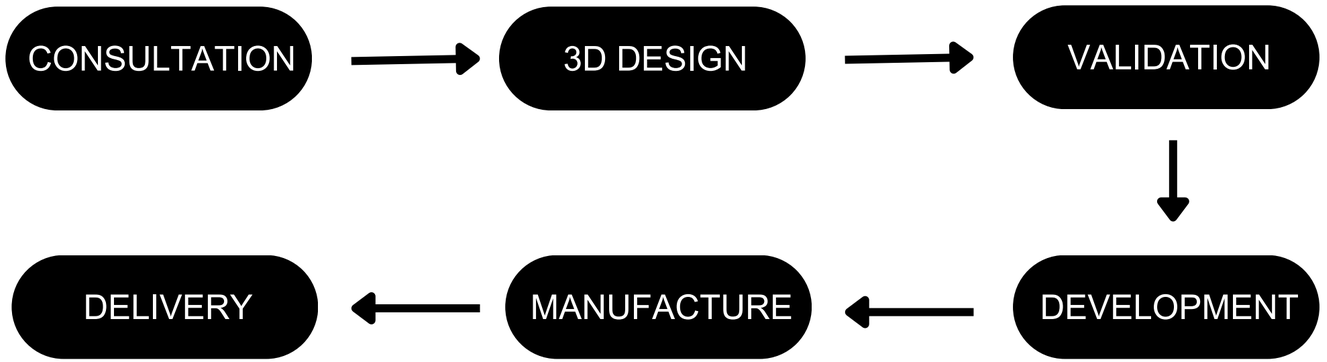

- DESIGN THINKING
- MANUFACTURE SOLUTIONS
- PROJECT MANAGEMENT
- QUALITY FOCUS
- DESIGN FOR MANUFACTURE
- END-TO-END SUPPORT

From concept development and engineering through to manufacturing and delivery, Unez Trading provides the expertise, coordination, and support needed to bring ideas to life.

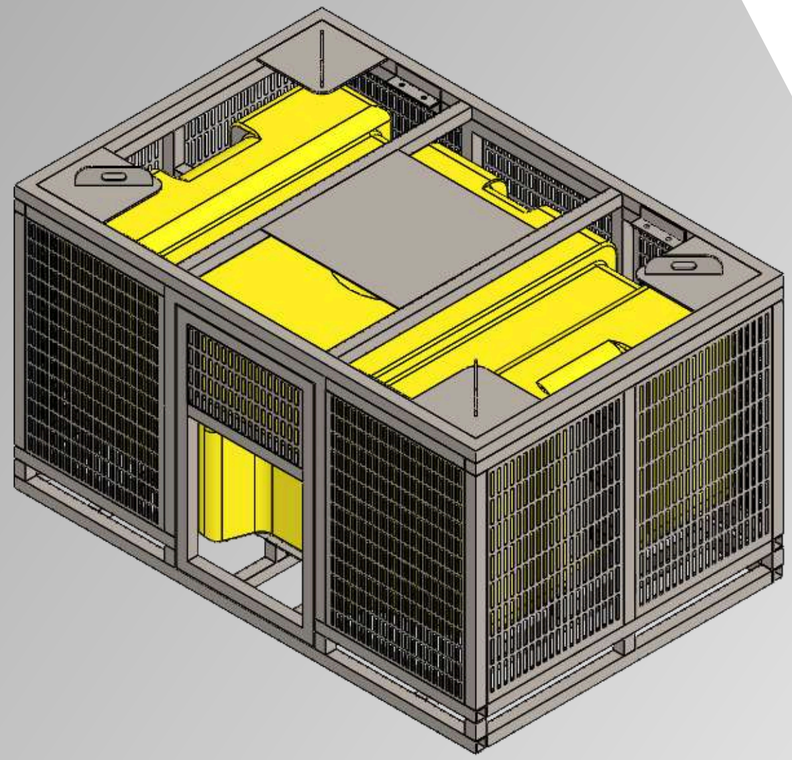

OUR DEVELOPMENT PROCESS

Every successful project follows a structured development journey.
At Unez Trading, we guide clients through each stage of the process, ensuring ideas are transformed into practical, manufacturable, and market-ready solutions.

By managing every stage of development, Unez Trading simplifies complex projects and helps clients move from concept to production with confidence.

DESIGN SOLUTIONS

Great products begin with intelligent design.
Combining engineering expertise with practical manufacturing knowledge, concepts are transformed into detailed, production-ready solutions that balance functionality, performance, and cost-efficiency.

From initial sketches and CAD modelling through to technical documentation and manufacturing support, every stage of the design process is focused on creating products that are built for success.

3D MODELING

Detailed digital models developed for product visualisation, engineering validation, and manufacturing.

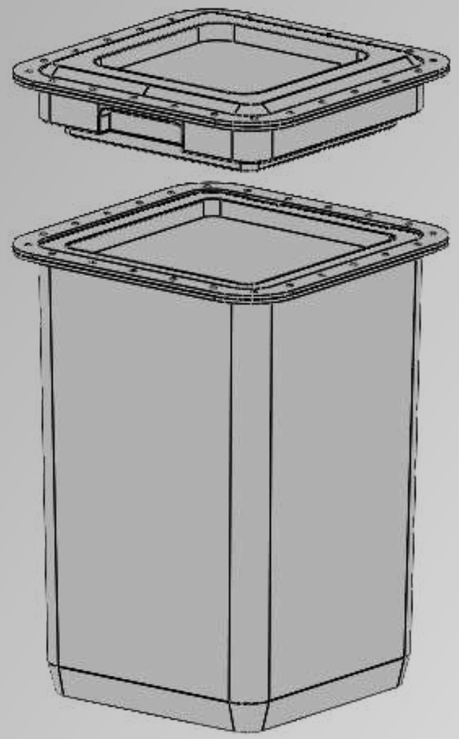

PRODUCT DESIGN

Concepts refined into practical, innovative solutions tailored to specific applications and market requirements

TECHNICAL DRAWINGS

Comprehensive engineering documentation produced for fabrication, tooling, and production.

PRODUCT DEVELOPMENT

MOULD DESIGN
&
DEVELOPMENT

Successful products require more than good design. They require careful planning, development, refinement, and coordination to ensure ideas become practical, manufacturable, and commercially viable solutions.
From initial concepts through to production-ready products, every stage of development is focused on reducing risk, improving efficiency, and delivering solutions that meet both technical and commercial objectives.

CONCEPT DEVELOPMENT

Exploring ideas, identifying opportunities, and developing practical solutions that align with project goals.

PROTOTYPE DEVELOPMENT

Developing prototypes and 3D printed models to evaluate functionality, fitment, and manufacturability before production.

PROJECT COORDINATION

Managing development activities, suppliers, and production partners to ensure projects remain aligned with objectives and timelines.

MANUFACTURING SOLUTIONS

Reliable manufacturing is essential to the success of any product. Through a trusted network of manufacturing partners and specialist suppliers, comprehensive fabrication and production solutions are delivered to support projects of all sizes and complexities.
From one-off prototypes to production runs, every solution is focused on quality, precision, and efficiency.

Our Solutions:

- METAL FABRICATION
- MOULD MANUFACTURING
- WATERJET CUTTING
- CNC BENDING, ROLLING & CUTTING
- CNC MACHINING & ENGRAVING
- BEAD & SAND BLASTING

PLASTIC SOLUTIONS

Durable, cost-effective, and versatile plastic products require the right combination of design, tooling, and manufacturing expertise.

From concept development through to production, comprehensive plastic solutions are provided to meet a wide range of industrial, commercial, and custom product requirements.
Specialising in rotational moulding, solutions are developed with a focus on durability, functionality, and long-term performance.

Our Solutions:

- MOULD DESIGN FOR ROTATION MOULDING
- PLASTIC PRODUCT DESIGN
- CUSTOM PLASTIC PRODUCTS
- PLASTIC PRODUCT MANUFACTURING
- PLASTIC PRODUCT SUPPLY

FEATURED PROJECTS

Every project presents unique challenges, requirements, and opportunities. Through a combination of design expertise, manufacturing knowledge, and practical problem-solving, solutions have been developed across a wide range of industries and applications.

SANITATION STANDS

Service Provided:

- Product Design
- Manufacturing Solutions
- Production Management

Overview:

Development of a freestanding sanitation station solution during the COVID-19 pandemic to support hygiene compliance across commercial, industrial, and public environments. The project included product design, material selection, manufacturing coordination,

FLANGE MANUFACTURING

Service Provided:

- Manufacturing Solutions
- CNC Laser Cutting
- Precision Machining

Overview:

Supplied custom-engineered flanges manufactured to specific pitch circle diameter (PCD) requirements for a specialised industrial application. The project involved precision CNC laser cutting followed by machining operations to achieve the required surface finish, dimensional accuracy, and fitment specifications.

FEATURED PROJECTS

Every project presents unique challenges, requirements, and opportunities. Through a combination of design expertise, manufacturing knowledge, and practical problem-solving, solutions have been developed across a wide range of industries and applications.

BRANDABLE BIN

Service Provided:

- Product Development
- Plastic Solutions
- Branding Integration

Overview:

Design and development of a versatile plastic bin solution that combines everyday functionality with effective brand visibility. The product was engineered for durability and ease of use while providing businesses with a practical platform for marketing, promotional campaigns, and corporate branding.

CUSTOM STAMP

Service Provided:

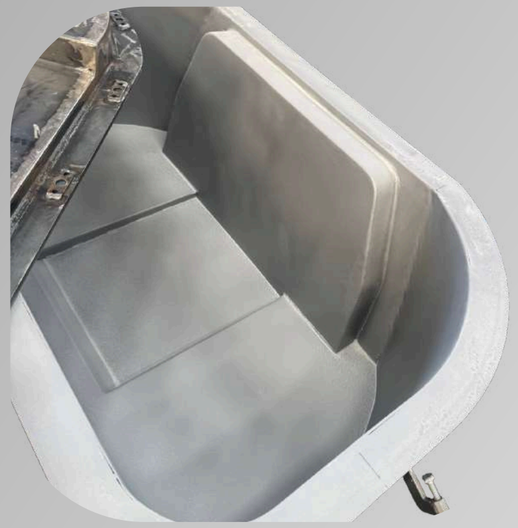

- Tooling Solutions
- CNC Machining
- CNC Engraving

Overview:

Design and manufacture of a custom date stamp insert for moulding applications. The solution was precision CNC machined and engraved to provide clear and durable manufacturing date identification, supporting quality control, traceability, and production management requirements.

FEATURED PROJECTS

Every project presents unique challenges, requirements, and opportunities. Through a combination of design expertise, manufacturing knowledge, and practical problem-solving, solutions have been developed across a wide range of industries and applications.

PLASTIC MOULD

Service Provided:

- Mould Design & Development
- Steel Fabrication
- Manufacturing Solutions
- Plastic Solutions

Overview:

Mould design of a custom steel rotational mould for an industrial plastic product. The project combined precision fabrication with practical tooling design to deliver a durable mould capable of supporting reliable, repeatable production.

PLASTIC MOULD

Service Provided:

- Mould Design & Development
- Manufacturing Solutions
- Project Coordination
- Plastic Solutions

Overview:

Project management for the manufacture of a custom rotational mould for an industrial plastic component. The mould was bead blasted to achieve a uniform surface finish, improving mould release and supporting consistent, high-quality production.

Unique Customs

Branding & Signage Solutions

BRANDING & VISUAL SOLUTIONS

As a division of Unez Trading, Unique Customs specialises in branding, signage, and visual communication solutions that help businesses strengthen their brand presence and create lasting impressions.
From vehicle branding and signage to custom vinyl applications and promotional displays, solutions are tailored to maximise visibility, professionalism, and brand recognition across a variety of environments.

SERVICES OFFERED:

- SIGNAGE SOLUTIONS
- GRAPHIC DESIGN
- BRANDING SOLUTIONS
- DECAL & VINYL SOLUTIONS
- VEHICLE WRAPPING
- CUSTOM SIGNAGE

Unique Customs

Branding & Signage Solutions

FEATURED SOLUTIONS

VEHICLE BRANDING

Service Provided:

- Graphic Design
- Decal & Vinyl Solutions
- Custom Branding

Overview:
Complete branding solution for vehicles, including bespoke graphic design, precision-cut decals, and professional vinyl application.

VEHICLE WRAPPING

Service Provided:

- Vehicle Wrapping
- Graphic Design

Overview:
Installation of a full custom vehicle wrap tailored client's needs. Wrapping provides a professional, long-lasting finish suitable for daily commercial use.

FEATURED SOLUTIONS

Unique Customs

Branding & Signage Solutions

PIPE MARKER BANDS

Service Provided:

- Custom Decal Solution
- Industrial Identification
- Product Marking Solution

Overview:
Custom pipe marker bands made to meet client-specific identification requirements.

Solution offers clear, durable, and compliant pipe identification marking.

CUSTOM SIGNAGE

Service Provided:

- Custom Signage
- Graphic Design
- Branding Solutions

Overview:
Custom signage solution to enhance brand visibility and attract attention.

Professional advertising solution tailored to business, ensuring long-lasting performance.

UNEZ TRADING

SINCE 2017

WHY CHOOSE UNEZ

Successful projects require more than technical expertise alone. They require the right combination of experience, coordination, practical thinking, and reliable execution. By combining design, development, manufacturing, and project management capabilities, solutions are delivered efficiently and effectively from concept through to completion.

INDUSTRIES SERVED:

- AGRICULTURE
- INDUSTRIAL
- MANUFACTURING
- COMMERCIAL
- RETAIL
- CUSTOM PRODUCT DEVELOPMENT

UNEZ TRADING
SINCE 2017

LET'S BUILD SOMETHING GREAT

Whether you're developing a new product, refining an existing design, sourcing manufacturing solutions, or enhancing your brand presence, the team is ready to help bring your vision to life.
From concept and engineering through to manufacturing, branding, and delivery, complete solutions are available to support every stage of your project.
